

## How to mark as ready for board

You can mark a record as ready for the board for one or more students from the main student list screen, or for a single student from their individual progression record.

This document includes instructions for both methods.

### Marking ready for board from the student list screen

Marking ready for the board from the student list screen allows you to select one or more students and change the status at the same time.

#### Process Overview

2. [Select the students you want to mark as ready for board](#)

3. [Click Mark as ready for board](#)

#### Step by Step Instructions

##### 1. Show/hide students from the List

If appropriate start by using the filters under “Show/hide rows” on the right side of the page to show or hide students from the list. There are two filters to choose from:

###### Hide published rows

If you have previously published decisions to some students, you can tick this box to hide the published records and only work with the ones you still need to process.

The screenshot shows a 'Show/hide columns' panel with three checked items: Student ID, Student Name, and Examination number. Below it is a 'Show/hide rows' panel with two options: 'Hide published rows' (checked) and 'Only show completing students' (unchecked). A red box highlights the 'Show/hide rows' panel.

###### Only show completing students

This filter is helpful when you're working on a one year Masters Programme with students graduating in autumn.

In this scenario you'll find the completing students in the new academic year alongside the new students taking the programme for the first time.

You can tick this box to hide the new students and leave the completing students who have rolled over into the new academic year.
